SURFACING SYSTEMS

Manor Farm Community Association provides a range of community activities, resources, services and a sports centre facility for those who live, work and play in the borough of Walsall.

Bradleys Surfacing Systems was selected to refurbish an unused tennis court in the grounds of the association, and transform it into a state of the art MUGA at an affordable cost.

TigerTurf's Evo Pro synthetic grass surface was chosen, with a PVP shock pad for football, tennis, netball and hockey on a new layer of macadam. The area now has 3m high rebound fencing and high quality floodlights – ensuring that the surface can be played on at all times of day.

"Bradleys Surfacing Systems were, for me, streets ahead of the competition and dealing with Tom from enquiry through sale to construction and completion made project management as easy and straightforward as it could ever be."

Gary Bird, Chief Executive

Client
Manor Farm Community Association

Area
550m²

Scope
New fence system
New sports lighting
30mm skim of porous macadam
Shock pad installation
Synthetic turf installation
